Like to stay on the go? Travel to educational, historical and recreational places with a focus on travel by various means of transportation. Crafts, games and special events will also be integrated into the camp day. To promote summer reading, we are implementing D.E.A.R (Drop Everything and Read). All children will be engaged in reading, story-time, focus groups and activities to keep kids reading all summer.

NASA's Summer of Innovation project has also been implemented in our program. The project provides hands-on learning opportunities for youth through NASA-unique science, technology, engineering and mathematics educational activities.
